PROFILE

Detail-oriented Full-Stack Developer with 2+ years of experience in web development and 8+ years of overall professional experience. Skilled in Java, JavaScript, React.js, Next.js, and TypeScript. Passionate about writing clean, efficient code and contributing to collaborative, high-impact teams. Eager to leverage my diverse background and technical skills to build scalable, user-focused solutions.

PROFESSIONAL EXPERIENCE

Full Stack Engineer/ GadgetVerse

2025 – present | Lagos, Nigeria

- Built and maintained scalable REST APIs with Node.js, integrated into a dynamic React.js frontend.
- Developed responsive UI components using React.js and modern JavaScript.
- Set up CI/CD pipelines via GitHub Actions for automated deployment on Render.
- Delivered end-to-end features in an agile startup team, from concept to deployment.

Quality Assurance Tester (Intern)/ Enum Africa

2024 – 2024 | Lagos, Nigeria

- Designed and executed test plans for backend APIs, frontend components, and mobile features.
- Performed manual and automated testing with Jest and Cypress.
- Tracked and verified bugs to ensure a smooth, functional user experience.
- Contributed to sprint reviews and daily standups for continuous product improvement.

Digital Trainee/ Semicolon Africa

2023 – 2024 | Lagos, Nigeria

- Built full-stack web apps with Java, Python, Go, React, and JavaScript, including APIs and responsive UIs.
- Contributed across the SDLC from planning to deployment.

Medical Data Analyst/ Damilola Clinic & Maternity

2020 – 2023 | Lagos, Nigeria

- Managed clinical data using Excel, Google Sheets, and SQL, supporting better patient care and operations.
- Gained healthcare insights through MSc in Business Administration.

PROJECTS

Jumia (E-Commerce App)

NextJs, TypeScript, Tailwind, Sanity, Stripe, Firebase, Redux

- Built an e-commerce platform with TypeScript, Tailwind CSS, Sanity, and Firebase.
- Integrated Stripe for payments and Google Auth for user sign-in.

EaziRent (House Rental App)

Java (Springboot), React, JavaScript, PostgreSQL

- Co-developed a rental platform with search, booking, and payment features.
- Integrated Paystack for payments and secured access with Spring Boot & JWT.
- Used GitHub Actions for CI/CD and team collaboration.

Connectivity

Java (Springboot), React Native, ReactJs

- Developed a service provider app (web & mobile) using Spring Boot and Maven for four domains: Transportation, Handyman, Healthcare, and Education.
- Built APIs for service browsing, booking, and transaction management.
- Implemented user-friendly features for booking, appointment management, and service reviews.
